ABOUT THIS REPORT

This report covers the financial year to 31 December 2025. Every figure is taken from the audited consolidated financial statements; where a number appears in more than one place, it is the same number, typed once from the same source.

Meridian Holdings is a fictional company. It exists to show the layout – the cover, letter, KPI cards, statements and charts – that this template produces out of the box. Replace the CONFIG block and the figures with your own audited source.

A YEAR OF DISCIPLINED GROWTH

Dear shareholders, 2025 was a year in which our strategy proved its resilience. Revenue rose 11.4% to \$4.82 billion on the strength of recurring demand, while disciplined cost management lifted our operating margin by 110 basis points to 27.2%. This is the compounding we have promised you – unglamorous, repeatable, and durable.

Every one of our four segments grew. Services, now 29% of the group, grew fastest at 20.3%, and for the first time contributed more than a quarter of operating profit. Platform remains the engine of the business, but its share of revenue has fallen for a third year, and that is by design: a broader base is a safer one.

We turned 70 cents of every dollar of operating profit into free cash flow, reduced net debt to 0.41 times EBITDA, and raised the dividend by 16.4% to \$1.28 per share. Our balance sheet has never been stronger, and we intend to keep it that way.

A broader base is a safer one. We would rather grow every segment a little than one segment a lot.

Our priorities for the year ahead are unchanged. First, protect the core: Platform customers renew because the product is dependable, and we will not trade that for speed. Second, reinvest behind the highest-returning segments, led by Services. Third, return surplus capital to owners, through the dividend and, where the price is right, through buybacks.

None of this happens without our people, whose craft turns strategy into results. On behalf of the Board, thank you – to our colleagues, our customers, and to you, our shareholders, for your continued trust.

REVENUE GROWTH BY SEGMENT, %

WHAT MOVED

Services was the standout, adding \$240 million of revenue at a 25.4% margin as multi-year contracts renewed at higher prices.

Platform grew 9.4% and remains the most profitable segment at 32.2%; its share of group revenue eased to 53% from 54%.

Hardware grew modestly and is managed for cash rather than growth.

OPERATING PROFIT BY SEGMENT

OUTLOOK

We expect Services to keep outgrowing the group and to reach a third of revenue within three years. Platform investment continues at current levels; Hardware capital spending falls again.
